Dear members of the COSMIC International Advisory Council.

You will find attached the Minutes of the COSMIC Annual meeting held at the beginning of October at the IWMS-MENSURA conference in Haarlem, Netherlands.

While the Minutes are relatively short, much has happened at the various COSMIC committee meetings held prior to the Annual meeting:

- MPC committee
- Market development
- Awards committee
- Special task group for the update to the Early & Rapid sizing + strategy for a new certification on COSMIC early sizing.

Outcomes of these committee meetings will start to appear over the coming months. If you have questions or suggestions on these above topics, do not hesitate to contact directly the leaders of these committees.

For your information, the Proceedings of this year conference are now available online at: <http://ceur-ws.org/Vol-2476>.

You will find in these proceedings a number of COSMIC related papers.

Best regards

Alain
