

The UK COSMIC Special Interest Group First Meeting

Location. The meeting will be held at the Union Jack Club, Sandell Sreet, London.

(www.ujclub.co.uk)

Date/Time: Thursday 10th April from 10:30 for 11:00 to 15:30, i.e. the room will be available from 10:30. Meeting to start when all have arrived.

(Sandell Street is directly opposite the entrance to Waterloo station from the Waterloo Bridge Road, at the Platform 1 end of the station. The entrance to the Union Jack Club, a tall building, is about 100 yards from Waterloo station.)

Agenda

1. Introductions (round table brief words on your interest in the attending the meeting)
2. General news from COSMIC e.g. about uses and users, the state of development of the new release v4.0 of the method, relationship with other organizations, e.g. IFPUG, etc
3. Specific questions suggested for discussion:
 - Use of the method to support early lifecycle estimating
 - Use of the method on projects using the Agile methodology
 - Correlation with other counting methods (in particular MkII and IFPUG)
 - The COSMIC approach to dealing with Non-Functional Requirements
4. Opportunity to raise questions about technical issues, rules, case studies, etc.
5. Possible topics to be studied by a UK COSMIC SIG
6. AOB.

Charles Symons

COSMIC

P.S. We have to pay for the meeting room cost, probably less than £250 in total, including facilities and refreshments. An equal share contribution to the cost would be much appreciated.
