Subject: UK COSMIC SIG - April NewsLetter - Core-Group COSMIC-DevOps

Dear All,

Latest Event:

We are at a time where Charles wants to retire and the UK wants to assert its Brexit independence.

Please note the recent progress made in Poland re FSM (Charles E: 14/04/2019) and some other EU countries are also very active in metrics.

The UK Metrics Challenge:	EU (27)	UK
	Poland: See recent news	
	Netherlands: NESMA	UK COSMIC SIG
	France: ASSEMI	
	Finland, Italy, . . etc. .	

It seems that there is room in the UK for a strong and dynamic UK COSMIC-SIG. Who wants to lead it? The ideal SIG Leader is a Millennials coming from the IAG^(*). If this not one of you, it could be someone you know. The earlier is the better.

Back to the confederated Core-Group COSMIC-DevOps:

Launching Stage – In Progress (E: 10/06/2019):

Three main tasks pertinent to the launch

- Communication infrastructure: UKMIS chat-Room completed, SocMed activated, Co-ordination centre at basics level
- Invitation of participants: In progress. **Offer to join is still available**
- Data gathering: in progress for the generic DevOps Life Cycle, Toolchains

And

- Strawman study plan: In progress

Next Stages :

- Revue of the Launch
- Pre-study Plan

- Preliminaries

I would appreciate it if you could:

- send me any comment useful for this study;
- recommend any potentially interested participant, and;
- point any orientation this study should take to satisfy your needs ... or ... curiosity.

DevOps Online Summit 2019

From the 8th to 11th April, I have attended a significant part of the DevOps Online Summit.

Many interesting points re the software development and its deployment also its Value Stream Mapping.

Core-Group

Please create your Core-Group on topics of Interest, UK COSMIC SIG needs as many relevant activities as possible.

The key word of a SIG is *_Interest_*. All the best.

By the way, forthcoming DevOps COSMIC problem: “What is the COSMIC size of this Apps?”, answer “This is the size given by my tool!”. Well, do you see the problems?

Reading of the month:

“*HMRC takes 'grow your own' approach to overcome DevOps skills shortages*”, by Andrew Sheppard on <https://www.computing.co.uk/ctg/feature/3073067/hmrc-takes-grow-your-own-approach-to-overcome-devops-skills-shortages/page/2>

Contact:

If you'd like to comment on or discuss any points raised above, I'll be contactable, on a 24hours **WhatsApp** notice, on:

Skype: bernard.londeix

Or, my Zoom (Personal Meeting Room) <https://us04web.zoom.us/j/5902859937>

Kind regards,

Bernard
