Dear members of the COSMIC:

- International Advisory Council (IAC)
- Executive Committee
- Measurement Practice Committee

The Measurement Practice Committee (MPC) has completed the mandate it received at the 2019 October COSMIC Annual Meeting to re-structure and re-format the COSMIC Measurement Manual.

The MPC will be issuing later today on the COSMIC website the official announcement (attached) of Version 5.0 of the COSMIC Measurement Manual.

I am also including an additional attachment summarizing the MPC review process.

All of our thanks to all of the MPC members for completing this major task in a timely manner.

I will be sending you in a distinct email the new 3 Parts of version 5.0 of the Measurement Manual to provide you access to it prior to its public availability through the COSMIC website.

Best regards,

Alain

Alain Abran
Chair of the MPC
COSMIC secretary
